HANDHELD SHOWER WITH ADJUSTABLE BRACKET

NOTE: FLUSH MAIN WATER SUPPLY LINE BEFORE INSTALLATION OF BELOW ADJUSTABLE BRACKET. AFTER FLUSHING, SHUT OFF THE SUPPLY LINE.

1. Place Adjustable bracket with hose outlet in the wall hole sized $\frac{1}{2}$ " .
2. Screw the product into water inlet pipe ensuring the bracket faces the corret direction.
3. Connect the hose to the water outlet pipe.

4. Assembled bracket on the wall should look similar to Figure A.
5. Handheld shower will be on the bracket as shown in Figure B.
